

PCDC Motorsports and TEAM BRIT PRESENTS

Brands Hatch

Dec. 1 2018 6 Hours

Brands Hatch 6 Hour Special Event

Organized by PCDC Motorsports in association with TeamBRIT. Broadcast by RaceSpot TV.

Welcome to PCDC and TeamBRITs 6 hour of Brands Hatch, a special event hosted on iRacing. TeamBRIT exist to enable the disabled community to access motorsport. They are a competitive racing team, not a charity, and race against teams of able-bodied drivers. With this iRacing event, TeamBRIT are expanding their message to sim racing. They have developed a sim wheel with controls adapted specifically for people with disabilities and in order to showcase this & raise general awareness, they will be entering teams in this event using these new controls.

The race is to be treated the same way you would treat any iRacing Special Event. In terms of rules and regulations, normal iRacing sporting code applies. Safety Rating and iRating will not be in effect, however we will have two chief stewards monitoring the race. Once a team reaches certain incident thresholds a stop and go penalty will be imposed.

Teams must consist of two drivers. Drivers must complete a fair share of laps or the team will be disqualified. A fair share is one-quarter (25%) of half of the teams total lap count. The race will have one split only.

Public signup opens
Public signup closes and attendance confirmation emails sent
Attendance confirmation deadline/open to reserves

September 12th
November 17th
November 24th

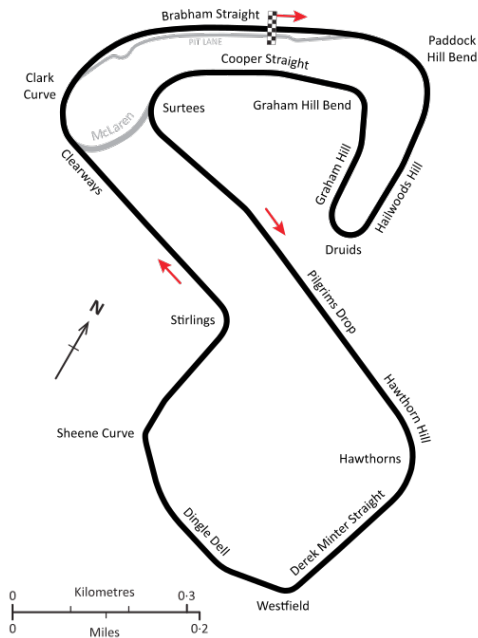

Sign Up Link

<https://goo.gl/forms/0PFfOyz7vhnuQt3O2>

When you sign up you will receive an email confirming your place on the grid. On November 17th signups will close and everyone on the grid will receive an email reminder and to confirm attendance. All replies must be in one week later on November 24th, at which point any teams who haven't confirmed will have their grid space offered to the first team in the reserve list.

Racing rules

Race Control will monitor the race for incident reports and incident points. Every time a team reaches 20x, they will receive a stop and go penalty.

If your team feel you were violated against on track you have the opportunity to submit an incident report. Incident reports must be submitted using an official incident report form and must include:

- Your Team Name
 - Corner number
 - Lap number
 - Timestamp
 - Reason for Report
- Incident reports must be submitted within 20 minutes of the incident.
 - Race Control decides the severity of any penalty issued.
 - Race Control will do their best to process all reported incidents until the last lap of the race.
 - After a penalty is issued the team will have 4 complete laps to either serve the penalty or appeal the penalty. Failing to do so will result in the team being disqualified.
 - To appeal a penalty a member of your team must join the Race Control Voice channel in Discord.

Appeals are only considered for mistaken identity or clear and obvious mistakes by Race Control.
